I certify that the information on this application (and any associated worksheets) is correct and request consideration for participation in this program. I have read and agree to the terms and conditions on the reverse side of the application. I understand that if any equipment in conjunction with this application is ordered, purchased, or installed before approval from the Utility is received, the proposed project may not qualify for a rebate.

TERMS AND CONDITIONS

1. ELIGIBILITY

Rebates are available to non-residential customers of the Utility. All products must be in use in facilities in the Utility service territory. The applicant shall be an end-user (i.e., not a variable speed drive wholesaler, distributor, or installer) of either commercial or industrial variable speed drives.

2. APPLICATION PERIOD

The program is offered January 1 through December 31 of the respective calendar year. Due to limited funding, this rebate offer can be withdrawn at any time without notice, and is available on a first-come, first-serve basis. All projects must be pre-approved by the Utility to qualify for a rebate.

3. INSPECTION AND VERIFICATION

The Utility reserves the right to inspect the Customer's facility through on-site visitations before and after new equipment installation or inventory to verify rebate eligibility.

4. INSTALLATION AND REBATE AMOUNTS

Qualifying variable speed drives installed and operational within two (2) months of the date of purchase are eligible for rebate under the NEW CONSTRUCTION or RETROFIT rebate schedule. Additional time may be granted subject to the Utility's pre-approval. Qualifying variable speed drives being used for replacement of on-site inventory are eligible for rebate under the INVENTORY rebate schedule. Incentives will be based on the horsepower of the motor or the VSD whichever is less. In no case will the rebate paid by the Utility exceed the purchase price of the equipment. The maximum rebate amount may be limited. Variable speed drives that qualify for Utility rebates under other Utility programs are not eligible for a rebate payment under this program.

5. INVOICE AND PAYMENT

When the purchase is completed, the Customer must notify the Utility and submit original invoices specifying the quantity and price of all materials purchased, the date ordered, installation costs, and applicable taxes. After satisfactory review of the invoices and on-site verification, a rebate check will be issued to the Customer. Please allow 60 days from the date of on-site inspection for delivery of payment.

6. EQUIPMENT ELIGIBILITY REQUIREMENTS

To be eligible for a rebate, the variable speed drive installation must meet the following conditions:

- a.) Rebates are limited to fan and pump installations. Variable speed drive installations for other motor-driven machinery, constant torque loads, and hydraulic pumping may qualify for an incentive through our Custom High-Efficiency Rebate Program.
- b.) The fan or pump does not require a drive as a standard mode of operation.
- c.) The drive must contribute energy savings in normal operation.
- d.) The drive must vary motor speed automatically.
- e.) The drive must have a true power factor of .90 or greater.
- f.) VSD's can cause waveform disturbances on the power lines. Therefore, a line reactor between the power source and the drive must be included. The reactor rating should be as recommended by the VSD supplier but not less than 3 percent impedance of the VSD rating.

7. TAX INFORMATION

The Utility will not be responsible for any tax liability imposed as a result of the rebate payment(s). Customers are advised to consult their tax advisors for detail. Customers must submit the appropriate Tax ID or Social Security Number on the application form.

8. DISCLAIMER

The Utility does not guarantee that the implementation of energy-efficient measures or use of the equipment purchased or installed pursuant to this program will result in energy or cost savings. The Utility makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warrant of merchantability or fitness for purpose. In no event shall the Utility be liable for any incidental or consequential damages. Customers are solely responsible for the proper disposal of existing equipment. Consult the Minnesota Pollution Control Agency (MPCA) for details at (800) 657-3864.

9. ENDORSEMENT

The Utility does not endorse any particular vendor, manufacturer, product, or system in promoting this rebate program. Listing a vendor or product does not constitute an endorsement, nor does it imply that unlisted vendors or products are deficient or defective in any way.
